

**Community Connectedness Inventory.** Students were asked to think about a typical graduate course at UW, our seminar classroom, and their primary workplace on campus. For each, they rated a set of statements, with 1 being not at all true and 5 being entirely true. For each space, ratings were then summed to yield a score between 0 and 60.

#### Classroom Inventory

1. I felt a sense of security around my classmates.
2. I shared common ground with my classmates.
3. I had a strong bond with my classmates.
4. I was included and able to participate in class discussions and activities.
5. I trusted that there was mutual respect among my classmates and myself.
6. I felt that I belonged in the group.
7. Students shared stories and experiences with one another.
8. Students were friendly with one another.
9. Students were concerned about one another.
10. Students were supportive of one another.
11. Students showed interest in what one another said.
12. Students cooperated with one another.

#### Workplace Inventory

1. I felt a sense of security around my colleagues.
2. I shared common ground with my colleagues.
3. I had a strong bond with my colleagues.
4. I was included and able to participate in class discussions and activities.
5. I trusted that there was mutual respect among my colleagues and myself.
6. I felt that I belonged in the group.
7. Colleagues shared stories and experiences with one another.
8. Colleagues were friendly with one another.
9. Colleagues were concerned about one another.
10. Colleagues were supportive of one another.
11. Colleagues showed interest in what one another said.
12. Colleagues cooperated with one another.
